BOUNDLESS DIGITAL

GET MORE SIMPLICITY AND SECURITY FROM YOUR
GUEST WIFI

Boundless Guest is the ideal solution for companies looking to implement a Guest WiFi network on a multi-site enterprise environment.

It offers all the services of an advanced enterprise-grade captive portal, and the advantages of a Cloud-based solution.

Welcome the next generation of
CAPTIVE PORTALS

Simplified Deployment

Rapid deployment, with no need for software or hardware installation.

Intuitive Management

Streamlined workflows, easy-to-use dashboard interface.

Centralized Platform

Facilitate and speed up the administration of multiple networks.

Role-based Access Control

Encourage collaboration with role-based access control.

Data Security Compliance

Data collection and storage in compliance with the GDPR and CNIL.

Scalable Technology

Cloud-based infrastructure to overcome hardware limitations.

AN ENTERPRISE-GRADE SOLUTION
for Corporate Environments

Multiple sign-on methods

- Extensive offer of sign-on authentication methods, including Guest Form, SMS, Social login, Ticketing Codes, Voucher Codes, or Sponsoring.
- Enterprise-level authentication system that connects to the organization's Active Directory service to allow user automatic authentication via LDAP or other SAML identity providers.
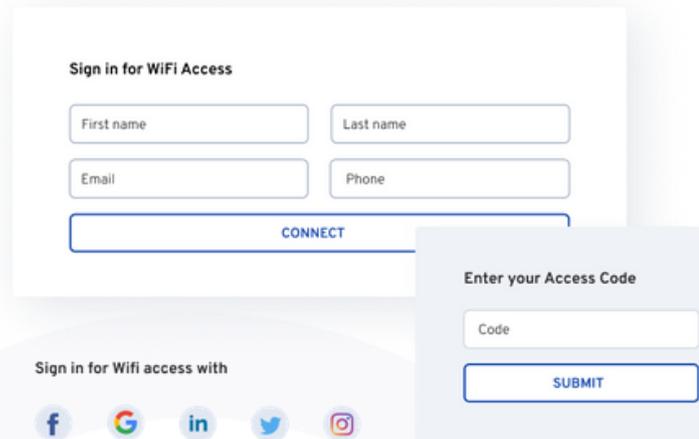

WiFi security and monitoring

- Protect your Guest WiFi by easily applying web filters to control the content that user can access from your network.
- Define different policies for different user profiles, such as managers, employees, BYOD, or visitors.
- Monitor your WiFi usage in real-time and define customized bandwidth and time limitations.
- Aggregate and preserve traffic-related activity logs from your WiFi in compliance with the GDPR.

Seamless integration with key vendors

- Boundless Guest can be used with multiple technological vendors.
- As a trusted partner of Cisco Meraki, Boundless has also developed the deepest integration with the Meraki Dashboard API.
